

## RMBG PRO - Documentation

### Module Information

Name: rmbgpro

Display Name: RMBG PRO

Description: Remove image backgrounds automatically using RMBG.PRO API

Compatibility: PrestaShop 1.7+ / 8+

### Features

- Configure API key in module settings
- Remove background button in product page
- Regenerates thumbnails automatically
- API key validation
- Bulk processing with AJAX

### How it works

The module uploads the selected image to RMBG.PRO API and replaces it with the processed result.

### External Service

URL: [https://api.rmbg.pro/v1.0.1/remove\\_background](https://api.rmbg.pro/v1.0.1/remove_background)

Authentication: X-API-KEY

### Installation

1. Copy module to /modules/rmbgpro
2. Install from Module Manager
3. Configure API key

### Configuration

Supported formats: png, jpg, jpeg, webp, avif

### Usage

Single: Product page → Remove Background

Bulk: Module config → Run bulk processing

### Security

- Admin only
- CSRF protection
- File validation (10MB max)

## Troubleshooting

- Missing API key: configure it
- Invalid token: reload page
- Enable cURL if needed
